Disclaimer

These policies serve as a guide to assist you in accurate claims submissions and to outline the basis for reimbursement if the service is covered by a member's Healthy Blue Medicare Advantage benefit plan. The determination that a service, procedure, item, etc. is covered under a member's benefit plan is not a determination that you will be reimbursed. Services must meet authorization and medical necessity guidelines appropriate to the procedure and diagnosis, as well as to the member's state of residence. You must follow proper billing and submission guidelines. You are required to use industry standard, compliant codes on all claim submissions. Services should be billed with CPT® codes, HCPCS codes, and/or revenue codes. The codes denote the services and/or procedures performed. The billed code(s) are required to be fully supported in the medical record and/or office notes. Unless otherwise noted within the policy, our policies apply to participating providers and facilities; a noncontracting provider who accepts Medicare assignment will be reimbursed for services according to the original Medicare reimbursement rates.

If appropriate coding/billing guidelines or current reimbursement policies are not followed, Healthy Blue Medicare Advantage may:

- Reject or deny the claim.
- Recover and/or recoup claim payment.
- Adjust the reimbursement to reflect the appropriate services and/or procedures performed.

Healthy Blue Medicare Advantage reimbursement policies are developed based on nationally accepted industry standards and coding principles. These policies may be superseded by mandates in provider, state, federal, or CMS contracts and/or requirements. System logic or setup may prevent the loading of policies into the claims platforms in the same manner as described; however, Healthy Blue Medicare Advantage strives to minimize these variations.

Healthy Blue Medicare Advantage reserves the right to review and revise its policies periodically when necessary. When there is an update, we will publish the most current policy to our provider website.

Policy

Healthy Blue Medicare Advantage allows reimbursement of nonelective and medically necessary hysterectomy procedures for covered members unless provider, state, federal, or

<https://medicareprovider.healthybluemo.com>

CMS contracts and/or requirements indicate otherwise. Reimbursement is based on the applicable fee schedule or contracted/negotiated rate.

Healthy Blue Medicare Advantage considers reimbursement for a hysterectomy only when the following criteria are met:

- The hysterectomy is medically necessary to treat an illness or injury.
- The member has given informed consent.
- The member or authorized representative is fully aware that the hysterectomy will render the member permanently incapable of reproducing and has orally and in writing expressed this understanding.
- The member or authorized representative has signed and dated an applicable consent/acknowledgement of hysterectomy form. The form is required regardless of the member's diagnosis or age.

Note: If the member was already sterile before the hysterectomy or if the individual required a hysterectomy because of a life-threatening emergency situation in which the physician determined that prior consent/acknowledgement was not possible:

- The consent/acknowledgement of hysterectomy form with the physician's certification will be required.
- The member's informed consent/acknowledgement of hysterectomy will not be required.

Healthy Blue Medicare Advantage does not require informed consent/acknowledgement of hysterectomy forms to be submitted with claims.

A valid consent/acknowledgement of hysterectomy form has to be properly executed and include all required signatures:

- Member, except as noted
- Person obtaining the member's consent
- The physician performing the hysterectomy

If a hysterectomy is performed in conjunction with a delivery, then multiple surgery guidelines apply. (Refer to the Healthy Blue Medicare Advantage Multiple and Bilateral Surgery policy.)

Nonreimbursable:

Healthy Blue Medicare Advantage does not allow reimbursement of a hysterectomy in the following circumstances:

- The hysterectomy is performed for the sole purpose of rendering the member permanently incapable of reproduction.
- There is more than one reason for the hysterectomy, but the primary reason is to render the member permanently incapable of reproduction.
- The hysterectomy is performed for the purpose of cancer prophylaxis.
