### Disclaimer

These reimbursement policies serve as a guide to assist you in accurate claims submissions and to outline the basis for reimbursement if the service is covered by a member's benefit plan. The determination that a service, procedure, or item is covered under a member's benefit plan is not a determination that you will be reimbursed. Services must also meet authorization and medical necessity guidelines appropriate to the procedure and diagnosis, as well as to the member's state of residence.

Ensure that you use proper billing and submission guidelines, including industry-standard, compliant codes on all claim submissions. Services should be billed with Current Procedural Terminology (CPT®) codes, Healthcare Common Procedure Coding System (HCPCS) codes, and/or revenue codes. These codes denote the services and/or procedures performed and, when billed, must be fully supported in the medical record and/or office notes. Unless otherwise noted within the policy, our reimbursement policies apply to both participating and non-participating professional providers and facilities.

If appropriate coding/billing guidelines or current reimbursement policies are not followed, we may:

- Reject or deny the claim.
- Recover and/or recoup claim payment.
- Adjust the reimbursement to reflect the appropriate services and/or procedures performed.

These reimbursement policies may be superseded by mandates in provider, state, federal, or Centers for Medicare & Medicaid Services (CMS) contracts and/or requirements. We strive to minimize delays in policy implementation. If there is a delay, we reserve the right to recoup and/or recover claims payment to the effective date, in accordance with the policy. We reserve the right to review and revise these policies

when necessary. When there is an update, we will publish the most current policy to the website.

### Policy

The health plan allows reimbursement for procedure codes appended with modifier LT and/or RT when indicating the side of the body for which the item, supply, or procedure will be used, unless provider, state, federal, or CMS contracts and/or requirements indicate otherwise.

Reimbursement is based on 100% of the fee schedule or contracted/negotiated rate of the procedure. Modifiers LT and RT are informational modifiers and therefore do not increase or decrease reimbursement of the procedure.

It is inappropriate to use modifier LT or modifier RT when billing for bilateral procedures, or with procedure codes containing bilateral or unilateral or bilateral in their description. Modifiers LT and RT do not indicate bilateral services. Claims submitted with modifiers LT and RT appropriately indicating a surgical procedure was performed on both the left side and right side of the body are subject to multiple surgery rules.

### Related Coding

Standard correct coding applies.
